Technical Capacity Building

- **An ISOC activity since 1993**
 - Co-ordinated by ISOC's *Education and Programs* team
 - Work with Internet community to develop and deliver educational programmes
 - Support knowledge-sharing and capacity building, particularly for developing countries
 - Early work by ISOC and others resulted in regional conferences, network operator groups. ISOC continues support of “NOGs”: *AfNOG, MENOG, PacNOG, SANOG, WALC + APRICOT*
 - Through collaborative efforts 500+ people per year receive network training
 - Some current focus areas: *IXPs and Root Servers*

- **An ISOC activity since 2004**
 - Organised in partnership with Network Startup Resource Centre (NSRC) <http://www.nsrc.org/>
 - Conducted as hands-on clinics in computer lab environment
 - *Objective:* to provide knowledge and skills ccTLD operators need to build/maintain high quality infrastructure and services
 - ISOC/NSRC maintain global ccNOG mailing list for past workshop participants/ccTLD managers to discuss technical issues
<http://ws.edu.isoc.org/ mailing/instructors.php>
 - Past collaboration in Asia Pacific with ccTLDs, NOGs, others (AIT, APRICOT,.....)
 - Currently working on advanced curriculum, pilot workshop being planned later this year

Welcome to the Internet Society Workshop Resource Centre

This web site provides a repository for sharing network training materials as well as a range of planning tools and information for trainers on how to set up and organise workshops. It also provides access to a directory of trainers and their competences and encourages interaction between members of the training community. The Internet Society Workshop Resource Centre is one of the many [education initiatives](#) supported by the Internet Society.

On this web site you can:

- ◆ [Upload](#) and [download](#) teaching materials for network technology workshops
- ◆ [See](#) or [update](#) our complete calendar of upcoming events
- ◆ [View](#) a list of network workshop sites hosted on this server
- ◆ Find [tools](#) and [checklists](#) to plan educational programs
- ◆ [Search](#) for potential workshop instructors
- ◆ [Review](#) archived presentations and teaching materials from various events around the world
- ◆ [Participate](#) in on-line planning discussions for upcoming events
- ◆ [Obtain](#) peer review for your lab exercises and curriculum
- ◆ [Locate](#) sources for lab equipment and technical books
- ◆ And find other related services
