

Foundation Collaborative Update

APSTAR meeting APNIC 52

13 September 2021

Duncan Macintosh

Foundation CEO

Projects and Collaboration

Pacific Technical training

Technical training and assistance activities to reduce national-level network inefficiencies and improve Internet connectivity

Fiji, Solomon Islands, Samoa, Tonga and Vanuatu

Australian government

“Dear Tashi, Warren, Dave, Fakrul and the rest of the APNIC Training Team,

On behalf of the CEO for the Ministry of MEIDECC, thank you very much for the informative and valuable training this week that have benefited our engineers and I am sure will go a long way in improving the availability and performance of our infrastructures and ultimately the users, the people of Tonga. We look forward to more similar trainings in the near future.”

SWITCH SEA*

Training and mentoring to support professional and leadership development for 72 women and LGBTQI+ network engineers

Project coordinators in Cambodia, Thailand, The Philippines and Viet Nam

Australian government

ได้รับ แพคเกจ แล้วนะคะ ^^ ประทับใจเลยคะ
